TODAY YOU WILL LEARN

THREE STEPS that will help you keep
your *friends* and *classmates*
SAFE from hurting themselves or others

IT'S IMPORTANT
TO KNOW THAT

People often show warning signs
before they hurt themselves or others

The background is a teal-tinted photograph of two men. On the left, a man with glasses and a beard is looking towards the right. On the right, another man is partially visible, looking towards the left. They appear to be in a professional or academic setting.

1- recognize WARNING
SIGNS and THREATS

WARNING SIGNS A PERSON MAY BE PLANNING TO HARM OTHERS

- Being obsessed with weapons or school shootings
- Talking about hurting other people
- Talking or posting about an upcoming attack
- Bringing a weapon to school

WHAT IS A THREAT?

When someone communicates
that they PLAN TO HARM
themselves or others

EXAMPLES OF SUICIDAL THREATS

“I’m going to kill myself.”

“I’m going to end it all.”

2-ACT IMMEDIATELY.
take it SERIOUSLY!

ONE OF THE BIGGEST REASONS THAT CAN
STOP YOU FROM ACTING IMMEDIATELY

Thinking you will be called a snitch

SNITCHING

Trying to get someone in trouble for your own gain

VS.

SAY SOMETHING

Getting someone help for their own safety and protecting others from harm

Being a Trusted Adult

Break-cersize Self-Care Bingo

WHO WAS YOUR *Trusted Adult* ?

Four Corners

Who was a Trusted Adult that you could go to if you had a problem or dilemma?

Voices of Trust: What Kids Say About Trusted Adults

"You didn't judge me."
"You made time to talk, even though your
schedule was busy."

"You didn't tell me it will be better tomorrow."

You LISTENED! When you knew you
couldn't fix what I was worried about,
you listened and that helped."

"You were honest that you
needed to tell someone
else. You didn't do it
behind my back."

How do you let students know they can come to you when they have a problem or issue to discuss?

Being Your Best **TRUSTED ADULT** *Self*

Understanding Barriers to Being a Trusted Adult

Assumptions

Definition: Preconceived notions or beliefs about someone or something based on past experiences or lack of information.

Example: “A teacher notices a student regularly sleeping in class and assumes he’s disinterested in school, not considering that he might be working a late job to help support his family.”

Bias

Definition: An inclination or prejudice for or against one person or group, especially in a way considered to be unfair.

Example: “A school administrator, influenced by personal bias, consistently calls on male students more than female students during school assemblies, potentially discouraging female students from speaking up.”

Personal Beliefs

Definition: Deeply held convictions or opinions, often influenced by one’s upbringing, culture, or personal experiences.

Example: “A coach, holding strong personal beliefs about the importance of independence, may downplay a student’s request for help, believing they should solve problems on their own, thereby missing an opportunity to provide support.”

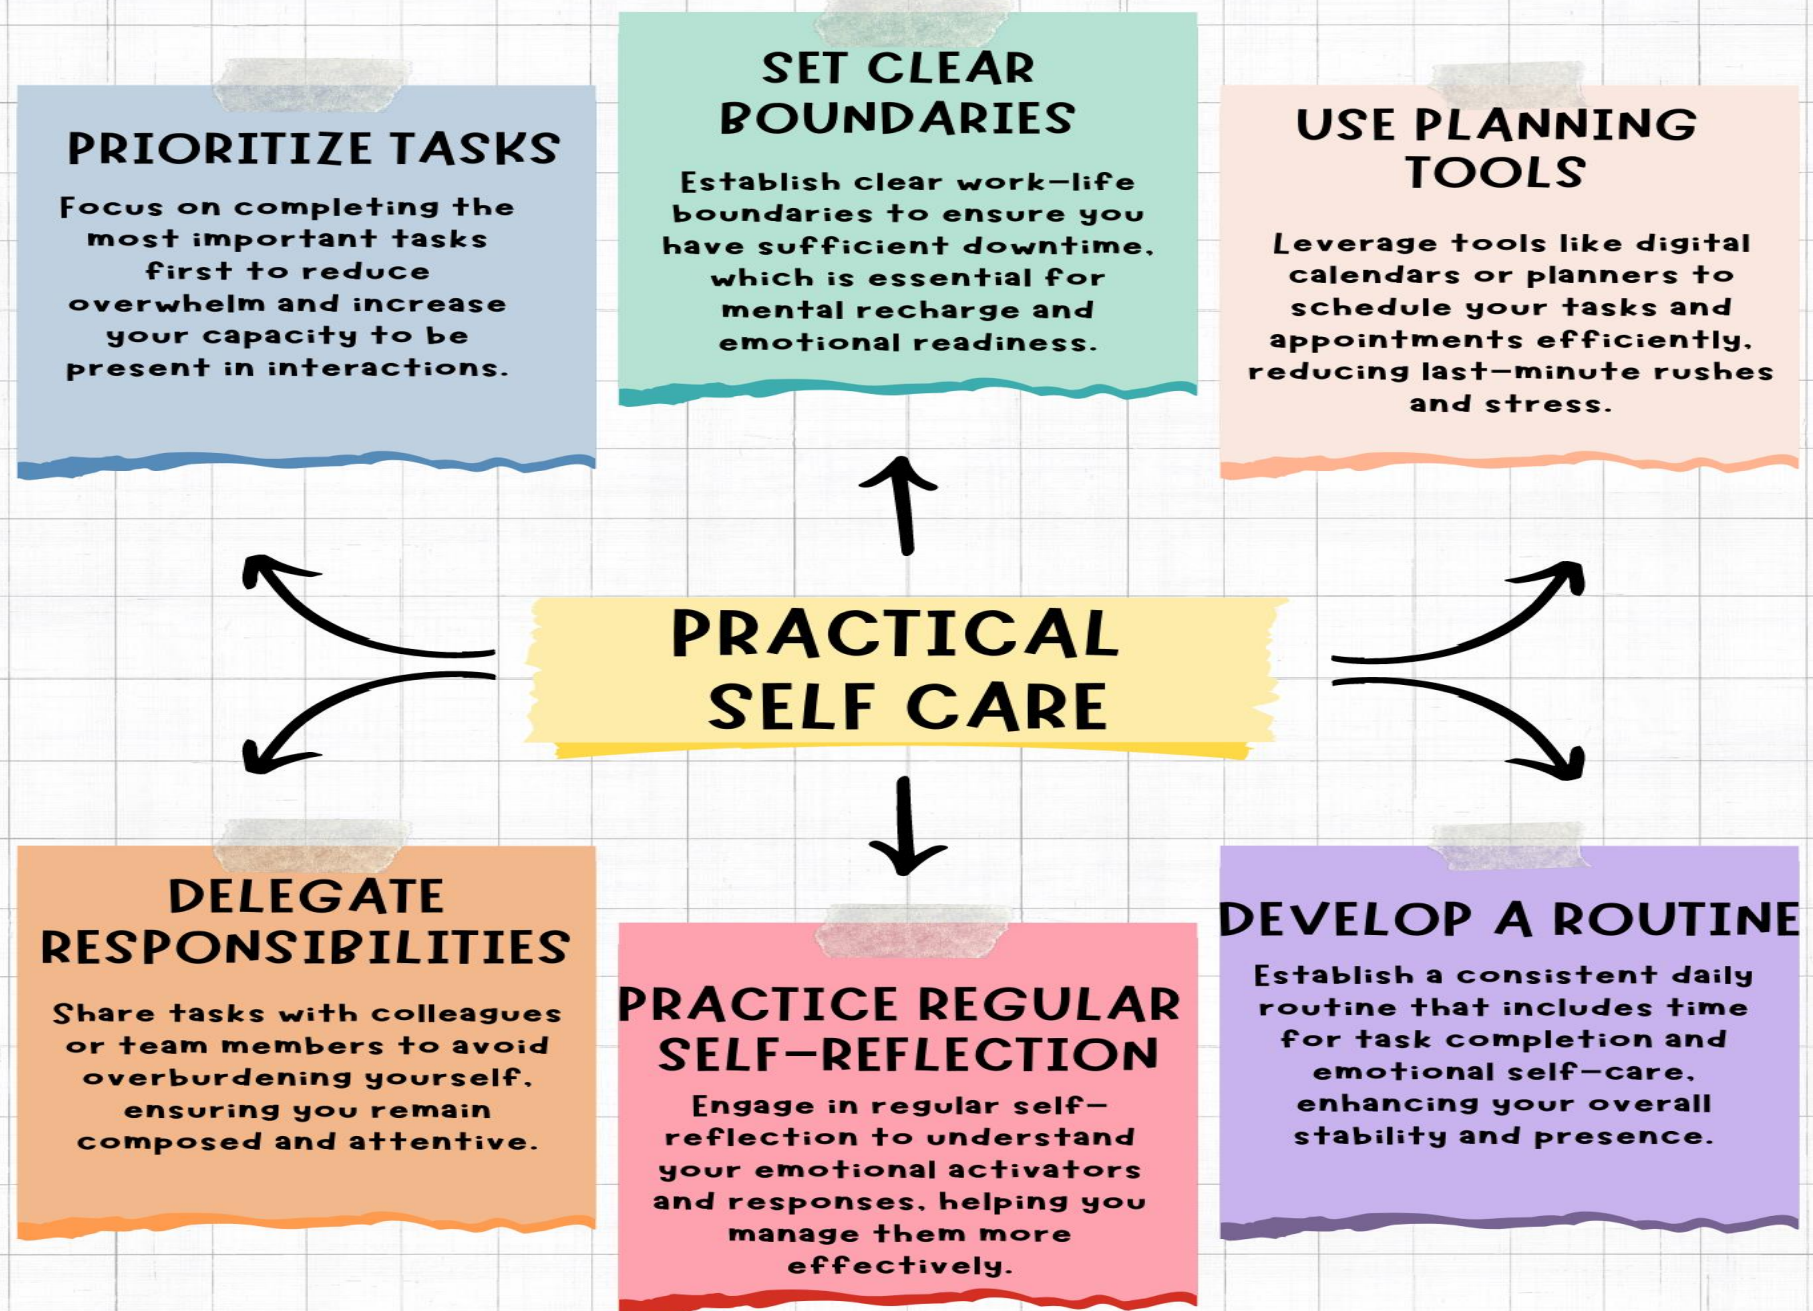

Being a Trusted Adult: Signals of Emotional Availability

Think - Pair - Share:

How might our actions or beliefs inadvertently signal we are emotionally closed off?

Beyond Relaxation: The Role of Self-Care

Trusted Adult Self-Care

- Trace your hand
- Make 5 commitments to care for yourself for the upcoming school year

- I need your help right now.
- Can I talk to you about a friend in need of help?
- I have some serious information to share with you, it's urgent.
- I saw a concerning social post; can I talk to you about it?

How to Be A TRUSTED ADULT

Role Play Scenario

A student approaches you first thing in the morning and states “Hello. I need to share a post with you that I saw at midnight last night.”

As the trusted adult, how do you respond? What are your next action steps?

Your turn: Role Play Scenario

As students work on an independent computer project, a student comes to your desk and hands you a note. The note says the student sitting next to them has been looking up different types of guns and ammunition, how do you proceed?
